Vote for Penikese!

Penikese is in the running to win a Community Impact Grant from MVBank!

Jim Newman, board member and volunteer captain, was an easy choice for sharing a story about an impactful member of the Penikese Island School community.

Community voting results will determine two organizations from Falmouth and two from Martha's Vineyard that will each receive \$5,000 grants.

Your vote will help us bring more students to Penikese to explore and connect with nature, each other, and themselves. Support local school trips that foster a personal connection with nature and inspire a lifelong respect for the environment, with students exploring their "own backyard" and strengthening their understanding of our coastal region.
